To Whom It May Concern:

The Write Score Reading and Writing Programs are a web-based application. There's no need to download or install any software to use Write Score's program. Since students and schools will be working in a web browser, there are a few browser requirements and access points listed below for optimal performance.

Computer Requirements:
- 4GB Ram (minimum)
- Google Chrome – version 52.x.x or above (preferred browser)
- Mozilla Firefox – version 49.0 or above

Student Access for Test Taking

http://student.writescore.com
- DNS
  student.writescore.com

- Ports
  TCP 80

- IP Ranges - 34.208.0.0/12, 35.155.0.0/16, 35.160.0.0/13, 50.112.0.0/16, 52.10.0.0/15, 52.12.0.0/15, 52.24.0.0/14, 52.32.0.0/14, 52.36.0.0/14, 52.40.0.0/14, 52.88.0.0/15, 52.92.32.0/22

  This hosted within AWS and is distributed to multiple machines around the US, which accounts for the larger number of IP addresses (and better performance)

Educator Portal for District/School Administrators and Teachers

https://portal.writescore.com
- DNS
  portal.writescore.com

- Ports
  TCP 80, 443

- IPs
  54.245.183.165/32

Application access

These applications utilize hosts within the api.writescore.com subdomain
- DNS
  *.api.writescore.com

- Ports
  TCP 80, 443

- IPs
  52.88.78.234/32 54.187.195.19/32

If additional information is needed, please do not hesitate to contact us.

Sincerely,
Write Score, LLC
