

# **Analytical Writing Data**

Write Score's scored essays result in powerful data for educators seeking to improve their students' performance through formative instruction. Our analytical data provides specific insights at the grade, class, and individual student levels.

Administrative Data Reports give school leaders and coaches the information they need to stay informed on their school's progress. This aggregated data view allows the ability to spot trends and areas for improvement for targeted feedback and support to teachers.

**Teacher's Class Performance Data Reports** provide a valuable outline of individual student essay performance, helping teachers tailor their instruction to meet the needs of each student.

**Individual Student Data Reports** are accessible to students through our online portal, empowering them to take ownership of their learning and track their progress over time.

With Excel data file exportability, our data can easily be integrated into your existing data management systems. Trust Write Score's data to help you drive student success.
